Climber’s Haven Tower

Rfmt120

Serial number	Rfmt120
Product line	Robinia Multiplay
Dimensions	≈ 397 * 246 cm
Height	≈ 375 cm
FFH	200 cm
In accordance with norm EN	EN1176:17
Age group	3 +
Key user group	3 – 10 years
Inclusive	No
Number of users	10
Platform height	150 cm

Warranty

10 **10-year guarantee** - Coverage includes structural failure of the robinia components and structures.

5 **5-year guarantee -** Structural strength of steel and stainless steel components

2 **2-year guarantee -** Structural failure of high density polyethylene and plastic components

Options

The Robinia wood can be supplied as untreated raw wood, painted with a brown coloured transparent pigment that maintains the golden wood colour or in a coloured version where selected components are painted in different colours.

A vertical climbing net that provides a more adventurous climbing experience

Torosplay Ltd.

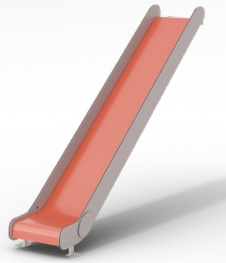
The hammock, made from durable rubber-plastic material, offers a flexible and comfortable spot for children to relax or gently sway while playing.

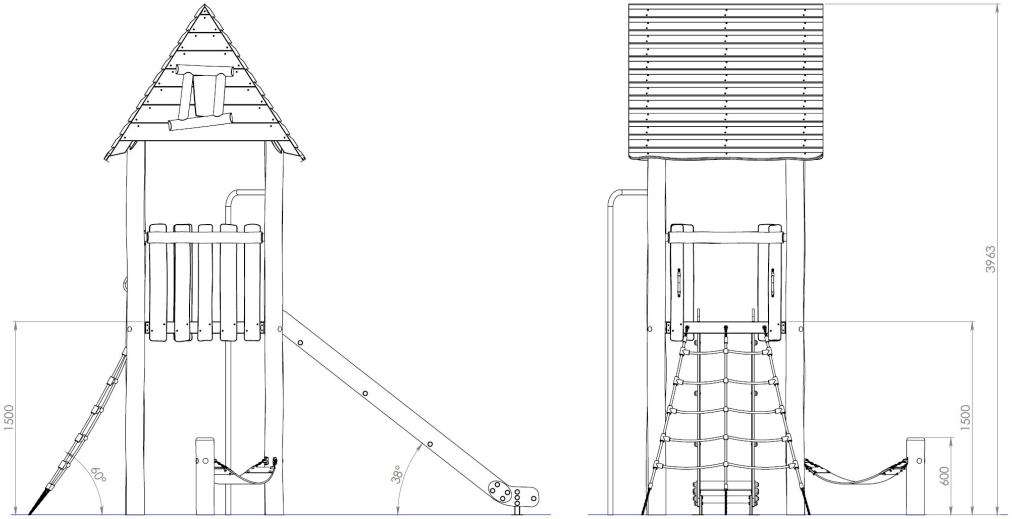
The metal climbing bar, securely attached to the wooden structure, provides a sturdy and engaging way for children to develop their upper body strength and coordination.



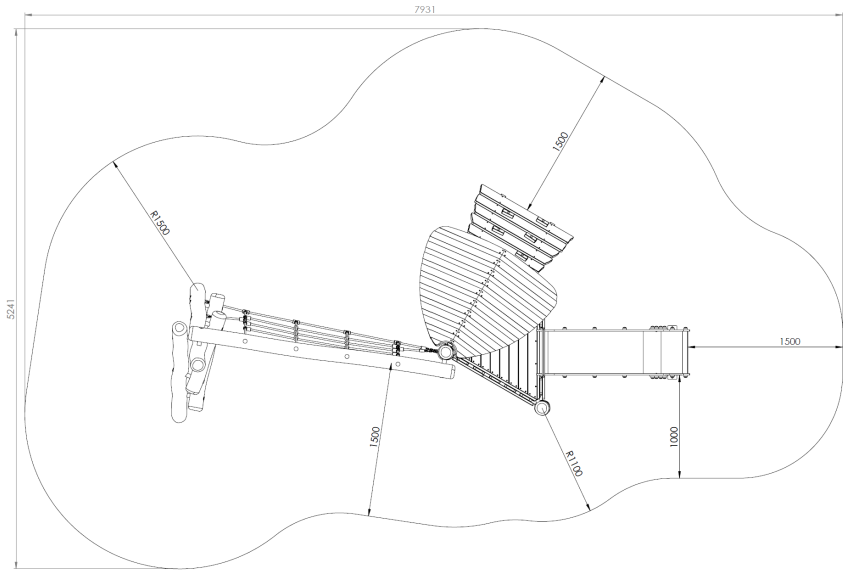
GRP slide with HDPE side panels. Suitable for places with direct sunlight.

Stainless steel slide - The high quality of the materials used and solid welding guarantees high resistance to mechanical damage - 2 mm thick sheet metal, steel pipe fi 33,7 mm, durable linear welding.

Rope handles attached to a specific stainless steel hardware.



This playground equipment is a wooden play structure with a green-roofed playhouse at the top. It features a long slide extending from the platform, providing an exciting way for children to descend. On one side, there is a red climbing net, encouraging active play and coordination. A hammock-style net is positioned underneath, allowing children to rest or play in a cozy space. Additionally, a metal climbing bar and a ladder with red safety railings are present for easy access. The structure is supported by thick wooden beams, ensuring durability and stability for outdoor use.



Cargo details

On a single pallet: -
