

The Emerging Submarine on stilts

Rfa104

Serial number	Rfa104
Product line	Aquatic
Dimensions	≈ 741 * 630 cm
Height	≈ 642 cm
FFH	200 cm
In accordance with norm EN	EN1176:17
Age group	3 +
Key user group	3 – 8 years
Inclusive	No
Number of users	18
Platform height	125 cm / 200 cm

Warranty

- 10

10-year guarantee - Coverage includes structural failure of the robinia components and structures.
- 5

5-year guarantee - Structural strength of steel and stainless steel components
- 2

2-year guarantee - Structural failure of high density polyethylene and plastic components

Activities

The Robinia wood can be supplied as untreated raw wood, painted with a brown coloured transparent pigment that maintains the golden wood colour or in a coloured version where selected components are painted in different colours.

This is a curved rope bridge with blue netting, secured between two wooden frames. It offers a fun and challenging way for children to develop balance and coordination.

This is a climbing net structure made of interconnected blue ropes. The net allows children to climb and develop their coordination and strength. The structure appears to be designed for both balance-based play and adventurous climbing activities.

This is a fully enclosed tubular slide with a twisting, S-shaped design. The structure is deep blue with rivet-like detailing along the edges, giving it an industrial or nautical-inspired appearance. The slide is supported by a sturdy frame and features a smooth, curved exit for a safe landing.

Dive into an underwater adventure with the Deep Explorer Submarine! This imaginative play structure is a thrilling centerpiece for any aquatic-themed playground. With its unique submarine design, featuring porthole windows, a climbing net, and a spiraling slide, it offers endless opportunities for exploration and fun. Children can climb aboard to become underwater explorers, navigating through tunnels, scaling the climbing elements, and sliding down the curved tube for a thrilling escape. Constructed from high-quality materials, the submarine is built to withstand the elements while ensuring safety and durability. Perfect for igniting creativity and active play, this submarine promises hours of excitement for young adventurers.

Cargo details

On three pallets:

1st - 680*160*160
2nd - 300*160*160
3rd - 300*160*160

Weight: 1400 kgs.

TOROSPLAY

Surfaces according to EN 1176-1:2017

TOROSPLAY

Nº	Material	Description	min. layer thickness mm	max. fall height mm
1.	concrete			≤ 600
2.	asphalt			≤ 600
3.	topsoil			≤ 1000
4.	turf			≤ 1500
5.	bark	20 - 80 mm grain size broken bark of conifers	200	≤ 2000
			300	≤ 3000
6.	wood chips	5 - 30 mm grain size mechanically broken wood, without bark and leaf components	200	≤ 2000
			300	≤ 3000
7.	sand		200	≤ 2000
			300	≤ 3000
8.	gravel		200	≤ 2000
			300	≤ 3000
9.	other		according to producer	≤ 3000

Installation method Type A: ≈ 1,3 m³ concrete into the ground

Installation method Type B: Anchoring
